WORLD WIDE PROCUREMENT SERVICES

ABOUT LIBITCO

LIBITCO B.V. is a professional procurement company, specialised in worldwide sourcing and supplying of materials, equipment and spare parts. We represent several world renowned manufacturers (country specific) but also supply a large variety of materials from other manufacturers.

Our focus is to serve the oil, gas, petrochemical, water, mining, cement, power (electricity), steel, food & beverage and other demanding industries as well as the contractors working in those sectors.

Through our many years of experience, we can handle everything for you, from international and worldwide sourcing and procurement up to transport to the final destination of your choice, including all required export documents.

LIBITCO B.V. is a full service procurement company.

OUR MISSION

Our mission is to be a 100% reliable business partner and to achieve 100% customer satisfaction in all aspects of doing business, from detailed quotation work to accurate order handling, safe packing and shipping till sending you finally flawless shipping documentation.

- over 30 years of experience
- wide scope of supply, including (OEM) spare parts
- first class manufacturers and high quality materials
- combining materials from a variety of manufacturers and suppliers from all over the world into single shipments ('one stop shopping'), with only one single set of shipping documents
- legalizations at Chamber of Commerce, Embassy or Government Departments
- seaworthy or airworthy packing
- ship by sea, air, courier or road
- complete export documentation
- ISO 9001 certified

SCOPE OF SUPPLY & SERVICES:

Metering Products and Systems:

Flow measurement products for oil and gas companies, refineries and other industries transporting valuable cargo through pipelines and with trucks. This includes not only custody transfer metering products but also the flow computers, proving systems, master meters and other metering accessories. From truck metering to large metering banks, LIBITCO can assist you from a single meter to a complete metering system.

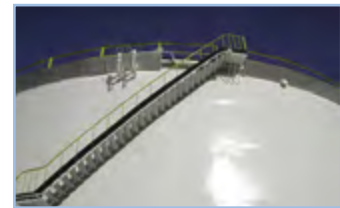

Blast cleaning abrasives (blasting grit):

We supply a large variety of abrasives for blast cleaning purposes. Abrasives are manufactured by the SIBELCO group. Types of abrasive: NAstra® Iron Silicate Slag, Scorex® Aluminium Silicate, Olivine, Garnet, Corundum, glass beads, steel shot, steel grit etc. Also filter sand and filter gravel

Coatings:

Industrial and Marine coatings for the protection of steel structures against corrosion. But also intumescent coatings, chemical resistant coatings, coatings for underground piping, heat resistant coatings, coatings for under insulation (prevention of CUI), fluorescent paints, coatings for on top of Polyurethane foam insulation and a variety of coatings for special service conditions.

Fiberglass Pipe Systems:

The best option for corrosion resistant piping (alternative for steel piping) is Glassfiber Reinforced Epoxy or Polyester piping (GRE & GRP piping). Pipes, fittings and flanges are available from 1" to 60". Flanges follow the various #150 and #300 international standards (ANSI B 16.5, ISO (DIN) etc.) for easy connection to flanges of valves, pumps and other accessories in a pipeline.

Valves and pipeline accessories:

Valves and valve accessories for control and operation as well as pipeline equipment. With several large stock points in Europe, we can supply from a single valve up to complicated valve packages. Valves can be equipped with various types and brands of actuators, loose, skid-mounted or assembled into a spool. Process critical valves may come with locking systems which ensures that only authorized personnel can close or open a valve.

Shackles, hooks and slings:

We supply a wide range of shackles, hooks, slings, steel wire rope, chain, synthetic rope and lifting beams for your lifting operations. Manufacturing/ supply is from West European origin with EU certification and conforming to latest International standards.

Cummins Filtration – FLEETGUARD® Filters:

CUMMINS® Filtration offers a full line of filters specifically engineered for a wide range of heavy duty engines. With advanced design and high quality performance, Fleetguard heavy duty filters give customers the ultimate protection for all of their equipment, backed by the best warranty in the business. Fleetguard has over 9.000 products covering the widest range of air, lube, fuel and hydraulic filters in the heavy duty industry.

Air filtration:

Air filter cartridges for air Inlets of gas turbines and other industrial applications which require large volumes of air. We supply gas turbine filter cartridges for gas turbines from GE, Siemens, Alstom, Turbomach, Solar and many other gas turbines around the world. Also filters and strainers (basket, Y etc.) for liquid filtration.

Ropes for Mooring, Lifting and Towing:

European manufactured and certified ropes for Mooring, Lifting and Towing. Synthetic ropes as per your request, from competitive Polypropylene ropes to high-end Dyneema® ropes. Also for composite steel wire ropes and full steel wire ropes.

Hydraulic lifting equipment and cutting tools:

Specialised hydraulic tools for vertical lifting or horizontal movement of heavy loads as well as hydraulic tools for cutting and spreading. If you need to lift 5 ton or 1500 ton, don't worry and come to us.

Insulation and accessories:

There is a wide variety of insulation materials in the market. We specialise in Rockwool, Polyurethane foam and Glasswool. LIBITCO can complete your "hot insulation" as well as your "cold insulation" requirements with cladding (Aluminum, Galvanized or Stainless Steel plating), fastening materials, accessories and protective coatings for PU foam. We also supply other types of insulation like Calcium Silicate and various specialties.

IPCO Heat Exchanger Plugs:

IPCO manufactures a range of plugs for leaking heat exchanger tubes which outperforms other mechanical heat exchanger plugs. Very reliable and fool proof installation. Increased safety during installation and operation. Very fast installation, reducing downtime. The plugs are available in the same material as the tube (avoiding galvanic corrosion and assuring same expansion rates with fluctuating temperatures).

Fire-fighting equipment and vehicles:

We offer total solutions for regional and industrial fire brigades, from fire-fighting trucks and emergency response vehicles to safety rescue and salvage equipment. The industrial equipment range consists of hydrants, shut-off valves, fire-fighting monitors (water cannons), tank foaming systems, valves, pumps, etc. for application in fire-fighting water distribution systems. In addition, we supply an extensive range of fittings for water and foam systems, ranging from hand-held nozzles to remotely controlled monitors at elevated height.

Ambulances:

Ambulances with a large variety of equipment installed, exactly made to your specification. The complete manufacturing and all installation work is done in Europe, of course following the latest European legislation.

Electrical Equipment and accessories:

LIBITCO can supply a large variety of Electrical equipment, cables, switch boxes, circuit breakers, batteries, lightning and transformers for many different applications in Oil & Gas facilities, powerplants, airport and other industries.

Chemicals and Solvents:

A large variety of chemicals, solvents and raw materials for many different processes and applications, from stock as well as from new production.

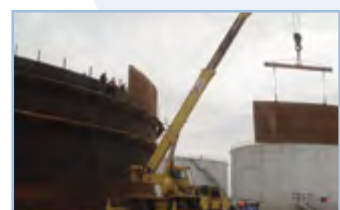

Steel plates for (storage) tank construction:

We supply steel plates either directly from European steel mills or pre-fabricated steel plates. The pre-fabricated steel plates can be ordered cut acc. to drawing, rolled, beveled, shop primed and in a thickness of up to 30 mm!

Skid Mounted Packages - Pressure vessels - Spool Construction:

LIBITCO can arrange for skid built packages for a large variety of applications such as: Flow metering skids, pumping skids (also fire water pumps), chemical injection skids, fuel gas skids, filtration skids, pig launcher/receiver skids, regeneration/dehydration skids, gas-liquid separators, pressure vessels, etc. etc. All these can be manufactured in every size and shape and from a variety of alloys.

Of course we can fabricate pipe spools with all kinds of equipment incorporated. For on-shore, off-shore and subsea.

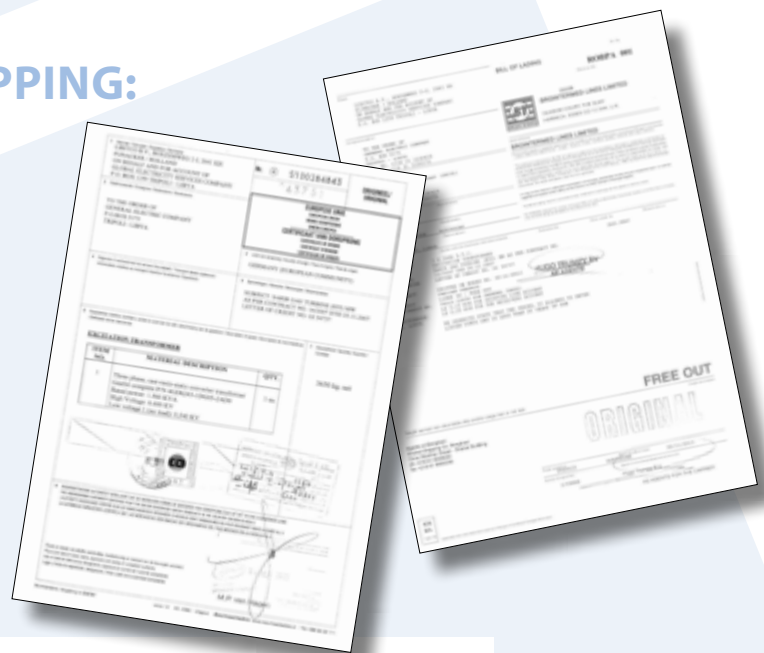

MISCELLANEOUS SUPPLIES:

- Blasting equipment + accessories
- Paint spray equipment (airless, conventional, electrostatic) + accessories
- Pipes & fittings (seamless, welded, all kind of steel qualities)
- Measuring, testing and inspection equipment
- Compressors
- Generators
- Cables, low, medium and high voltage
- Pumps, various sizes and makes.
- Loading equipment / Loading arms
- Gaskets, stud bolts & nuts
- Pipeline equipment in general
- Pressure and temperature indicators
- Oil and chemical absorption products
- Welding rods
- Cleaners & detergents.
- General equipment and spare parts

ORDER HANDLING & SHIPPING:

We can arrange all your logistics:
Shipment by sea, air, truck or courier service.
We ship as easy from European ports as from USA based ports.

Goods can be seaworthy packed (wooden boxes, crates, containers) as per your requirement.
Of course we can translate and legalise your documents at the required Embassy and arrange for 3rd party pre-shipment inspection.
